DELL Technologies

What is Dell?

OUR JOURNEY: FROM PCS TO A TECHNOLOGY LEADER

Our offerings today

Artificial Intelligence (AI)
Cutting-edge AI solutions for various industries.

IT Infrastructure
Comprehensive solutions including servers, storage, and networking.

Computer & Accessories
A wide range of laptops, desktops, and peripherals.

Services
End-to-end IT services to support businesses of all sizes.

1984

As a freshman at the University of Texas, Michael Dell founds PC's Limited with $1,000 and a game-changing vision for how technology should be designed, manufactured and sold.

1985

Launched the first computer, the Turbo PC.

1995

Dell expands worldwide operations in Europe, Asia, Japan and the Americas.

1996

Began selling PCs online, revolutionizing the way computers were sold.

2000s

Expanded product line to include servers, storage, and networking products.

2013

Privatized to focus on long-term growth and innovation.

2016

Acquired EMC, becoming Dell Technologies, a leader in IT infrastructure.

2023

Dell completes a season of unprecedented innovation to build out the world's broadest GenAI infrastructure portfolio to help lead the AI revolution.

2024

Launch of the Dell AI Factory with NVIDIA, the industry's first comprehensive AI solution to help enterprises quickly capitalize on AI investments.

DELL Technologies

Business Functions

Engineering & IT

Dive into real-world tech innovation. Develop software, test systems, and support enterprise solutions.

Best for: Computer Science, Electrical Engineering

Sales

Learn to connect with clients, understand their needs, and deliver cutting-edge tech solutions.

Best for: Marketing, Business Administration

Human Resources

Support people strategies from hiring and onboarding to employee development and compensation planning.

Best for: Human Resources, Psychology

Security

Join the frontlines of cybersecurity. Help protect data, manage risks, and ensure digital trust.

Best for: Computer Science, Information Systems, Cybersecurity

Supply Chain

Optimize global operations. Work on logistics, inventory, and supplier management to keep things moving.

Best for: Supply Chain Management, Industrial Engineering

Finance

Get hands-on with budgeting, forecasting, and financial analysis to drive smart business decisions.

Best for: Finance, Accounting, Economics

Marketing

Craft compelling campaigns, manage digital content, and help shape the Dell brand experience.

Best for: Marketing, Communications

Dell Technologies Internship Program

PURPOSE

To cultivate the next generation of innovative thinkers and leaders by providing students with hands-on experience in various fields while developing valuable skills and making meaningful contributions and connections.

Locations:

Round Rock, TX
Hopkinton / Franklin, MA

Timeframe:

Applications Open: Aug/Sept for following Summer
Internship: End of May / Early June – Beginning of August

Resources:

Professional Development Workshops
Peer Advisor / Buddy, Manager & BU Champion
Intern-Focused Social and Development Events

Interviews

- # of Interview Rounds Dependent on Business Unit
- All Virtual
- Prepare for Behavioral-Style Questions
- HackerRank
  - Typically, a 90min assessment (SW Engineering only)

Skillsets

**Soft & Technical*

- Adaptable
- Critical Thinking
- Problem Solver
- Communication & Leadership/Collaboration
- Presentation Skills
- Excel Proficiency
- Data Driven
- Cloud Platforms (AWS, Azure, Google Cloud)*
- AI Proficient*
- Machine Learning Frameworks*
- Programming Languages (Python, SQL, Java)

Project-Based

The opportunity to gain hands-on experience and contribute to the organization's overall goals

Project Examples:

- Business & Sales Operations – Portfolio Optimization: Use data analytics to establish a sales strategy to increase productivity and deliver incremental growth
- AI Agentic Framework Built POC agents to enhance Dell products, PowerStore, etc.
- Partnered Solutions Developed blueprints leveraging partner IP

Mentorship / Development

- Develop your Skills
- Innovate & Create Meaningful Connections
- Intern Mentorship Toolkit
- Tiered Mentor System within the Business Unit
- Access to Mentors Across the Company

**Employee Resource Group Showcase*
Executive Speaker Series
Financial Literacy Workshops and more!

The Human Advantage in an AI Workplace

Adaptability

- Adjust priorities quickly as changes occur
- Learns and adopts new tools/approaches
- Stays effective amid shifting rules, processes, or expectations

Communication & Clarity of Thought

- Structure problems with solutions clearly and logically
- Translate complex ideas into clear instructions for people and AI
- Turns complexity into actionable clarity, driving higher-quality outcomes

Curiosity & Learning Agility

- Continuously challenges assumptions through “why” and “what if”
- Experiments, tests, and explores new ideas and approaches
- Learns quickly to stay relevant

Collaboration & Influence Without Authority

- Drives outcomes through alignment, trust-building
- Navigates cross-functional environments effectively
- Influences stakeholders through relationships, not formal power

Critical Thinking & Judgement

- Evaluates AI-generated and human inputs for trustworthiness and quality
- Challenges assumptions and reframes unclear questions
- Makes strong reasoning and sound decisions under ambiguity

Risk Navigation

- Makes confident decisions with incomplete or imperfect information
- Balances speed with sound judgement as a competitive advantage
- Adjust course quickly without being paralyzed by uncertainty

Resilience & Mindset

- Bounces back quickly from setbacks
- Stays solution-oriented and focused under challenges
- Brings positive energy to teams

Ethical Reasoning & Responsible AI Use

- Identifies bias, gaps, or risks in AI outputs
- Applies human oversight to high-impact, AI-assisted decisions
- Treats ethical judgement in AI as a baseline expectation

Dell Technologies New Grad Rotational Programs

PURPOSE

At Dell Technologies, we invest in our college graduate hires by offering continuous opportunities to grow strategic, technical, and networking skills. New-Hires gain real-world project experience, build community, engage in service, and thrive in Dell's inclusive culture.

Locations:

- Round Rock, TX
- Hopkinton/Franklin, MA
- Nashville, TN

Timeframe:

- Rotation Length: 6 to 12 months
- Program Duration: 2 to 3 years
- Start Dates:
  Early February (Dec. grads) | Early August (Spring grads) | Year-round (Sales)

Interview:

- # of Interview Rounds Dependent on Business Unit
- All Virtual
- Prepare for Behavioral-Style Questions
- HackerRank Assessement

Rotation Examples:

- AI Agentic Framework: Built POC agents to enhance Dell products, PowerStore, etc.
- Employee Relations Investigator: Resolved employee concerns while ensuring compliance with HR policies and labor laws.

Resume Writing 101

How to Stand out to Employers like Dell Technologies

DELL Technologies

Purpose of a Resume

To make employers want to interview you

To provide employers with a summary of your education, abilities, & experience

To highlight your strongest assets and differentiate yourself from other candidates

To let employers know how your skills and abilities would be a good fit

Copyright © Dell Inc. All Rights Reserved.

How Long Does a Recruiter Look at a Resume?

Copyright © Dell Inc. All Rights Reserved.

In Reality…

Recruiters spend an average of

5-10 seconds scanning your resume

Copyright © Dell Inc. All Rights Reserved.
Internal Use - Confidential

Activity: Recruiter Speed Round

Instructions:
You are a recruiter hiring for a Software Engineering Intern.
You have 5-10 seconds to scan each resume.

Your goal: Which one stand out most – and why?

RESUME **A**

TAYLOR KIM

EDUCATION

University of ABC
Bachelor of Science, Computer Science
GPA: 3.7

EXPERIENCE

Innovate Tech
Software Engineering Intern

- Developed APIs and worked with cloud-based systems using AWS ar
- Participated in sprint planning, stand-ups, and code reviews
- Gained exposure to CI/CD pipelines and DevOps workflows

PROJECTS

Smart Scheduler App

- Built scheduling tool using React, Node.js, MongoDB, and AWS
- Integrated multiple APIs and implemented various user features

SKILLS

- Python, Java, JavaScript, SQL, C++
- React, Node.js, AWS, Docker, Kubernetes
- Git, Agile, CI/CD

RESUME **B**

ALEX JOHNSON

EDUCATION

University of XYZ
Computer Science
GPA: 3.6

EXPERIENCE

Software Engineering Intern | TechStart

- Developed backend features using Python for internal tools
- Assisted with debugging and testing application functionality
- Collaborated with cross-functional teams in Agile environment

PROJECTS

Task Manager Web App

- Built full-stack application using React and Node.js
- Implemented user authentication and database integration

SKILLS

- Python, JavaScript, SQL
- React, Node.js
- Git, Agile

RESUME **C**

JORDAN SMITH

EDUCATION

University of DEF
Bachelor of Science, Computer Science — April 2020
GPA: 3.6

EXPERIENCE

Tech Start
Software Engineering Intern

- Built 3 backend APIs in Python, improving data processing speed by 35%
- Resolved 10+ production bugs, reducing system errors by 20%
- Collaborated in Agile team of 6 to deliver sprint features on time

PROJECTS

Smart Scheduler App

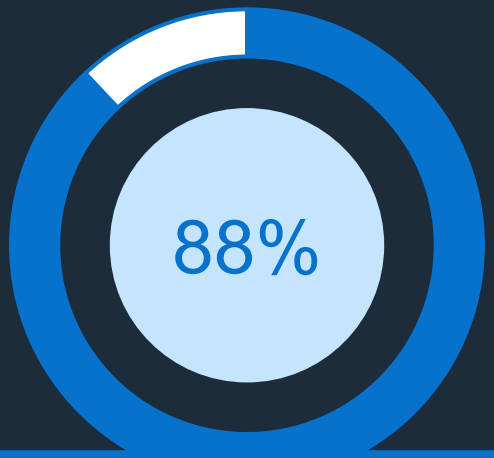

- Developed full-stack application (React, Node.js) with secure authentication
- Deployed application with 200+ active users

SKILLS

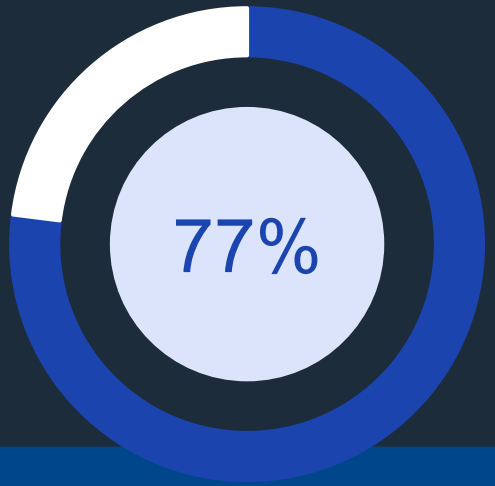

- Python, JavaScript, SQL
- React, Node.js
- Git, Agile
- REST APIs, Debugging

Internal Use - Confidential

What Dell Recruiters Look For

"A tailored resume isn't extra work—it shows intentionality and tells us you're serious about this specific opportunity."

Copyright © Dell Inc. All Rights Reserved.

Using AI in Resume Writing: Smart vs Risky

Smart Ways to Use AI

- Brainstorm bullet points from your experience
- Improve clarity & wording
- Help quantify impact (“Add Metrics”)
- Tailor resume based on job description key words

What to Avoid

- Copying AI Responses word-for-word
- Using vague or generic language
- Listing skills/experiences you can’t explain
- Over-polished content that doesn’t sound like you

AI can be used as a great starting point, but not a final answer

Copyright © Dell Inc. All Rights Reserved.

Do's & Don'ts

DO

- ✓ **Keep Formatting Consistent** (fonts, spacing, bullet styles)
- ✓ **Make it Easy to Scan** with clear sections and simple layout
- ✓ **List Experiences in Reverse Chronological Order** (most recent first)
- ✓ **Show How You've Stayed Active** (work, internships, coursework, or skill-building)
- ✓ **Adjust Margins & Font Size Thoughtfully** to keep it to one page
- ✓ **Save and Submit as a PDF** to preserve formatting

DON'T

- X **Use Inconsistent Formatting** (mixed fonts, sizes, or styles)
- X **Overcrowd your Resume** with long paragraphs or too much text
- X **Use Personal Pronouns** (avoid "I", "me," "my")
- X **Use Slang, Abbreviations, or Informal Language**
- X **Include Unnecessary Personal Details** (age, gender, photos/graphics)
- X **Don't List References**

DELL Technologies

How to Build Your Resume

Copyright © Dell Inc. All Rights Reserved.

The Basics

Length

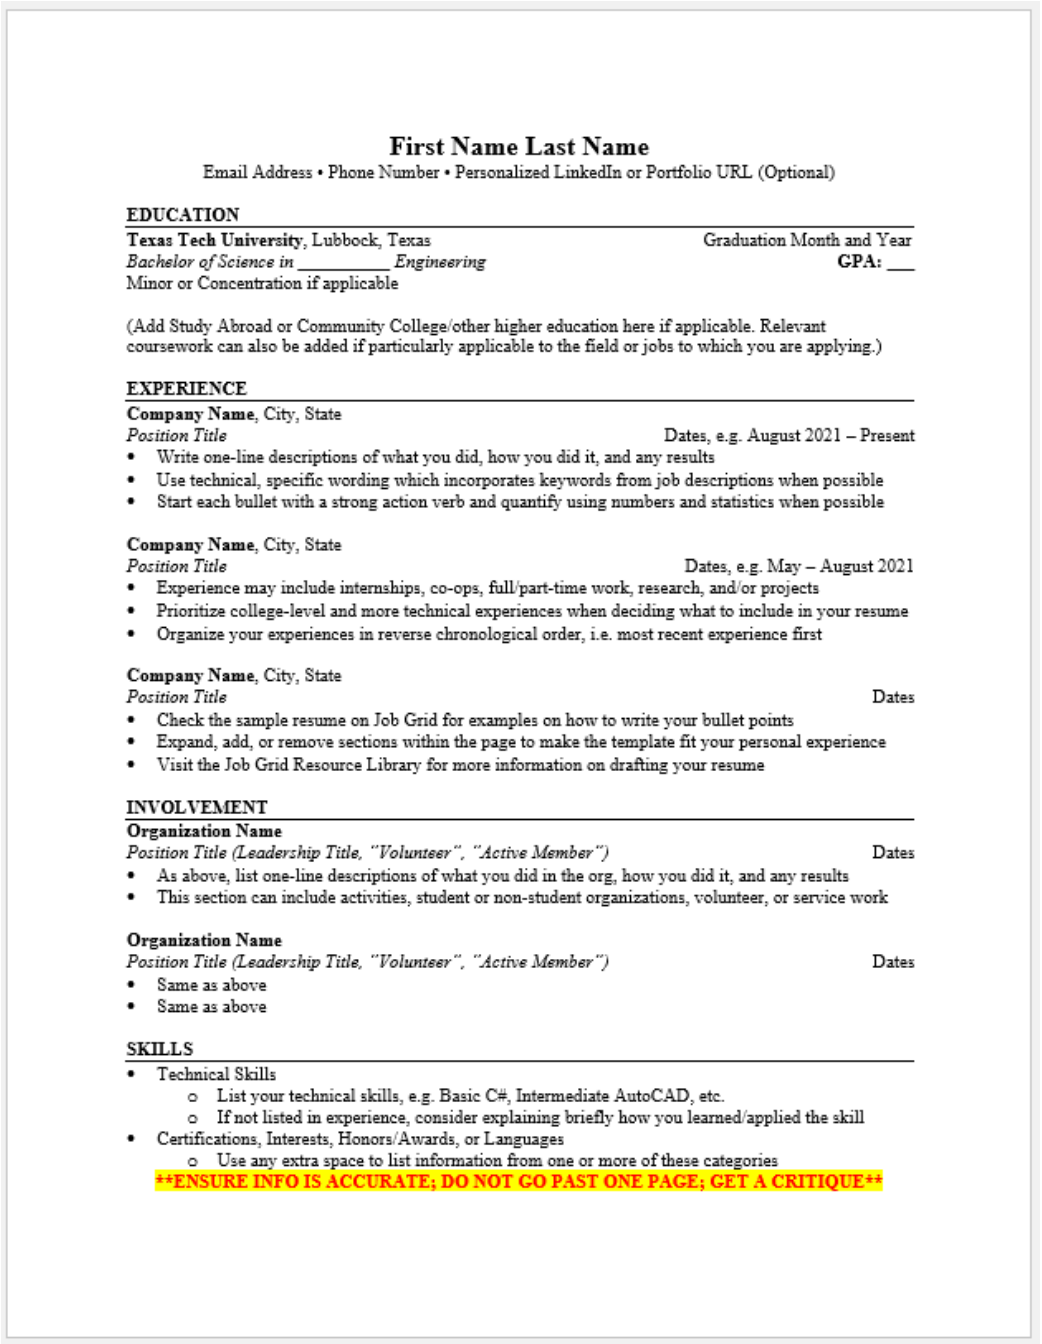

1 page *(no more, no less)*

Purpose

1. Showcase your Qualifications
2. Highlight your Fit for the Role
3. Gain Interest from Employer
4. Secure an Interview

Why it Matters

- First impression with potential employer
- Helps you stand out in a competitive job market
- Provides a structured view of your qualifications

First Name Last Name
Email Address • Phone Number • Personalized LinkedIn or Portfolio URL (Optional)

EDUCATION

Texas Tech University, Lubbock, Texas — Graduation Month and Year
Bachelor of Science in _____ Engineering — **GPA:** ___
Minor or Concentration if applicable

(Add Study Abroad or Community College/other higher education here if applicable. Relevant coursework can also be added if particularly applicable to the field or jobs to which you are applying.)

EXPERIENCE

Company Name, City, State
Position Title — Dates, e.g. August 2021 – Present
- Write one-line descriptions of what you did, how you did it, and any results
- Use technical, specific wording which incorporates keywords from job descriptions when possible
- Start each bullet with a strong action verb and quantify using numbers and statistics when possible

Company Name, City, State
Position Title — Dates, e.g. May – August 2021
- Experience may include internships, co-ops, full/part-time work, research, and/or projects
- Prioritize college-level and more technical experiences when deciding what to include in your resume
- Organize your experiences in reverse chronological order, i.e. most recent experience first

Company Name, City, State
Position Title — Dates
- Check the sample resume on Job Grid for examples on how to write your bullet points
- Expand, add, or remove sections within the page to make the template fit your personal experience
- Visit the Job Grid Resource Library for more information on drafting your resume

INVOLVEMENT

Organization Name
Position Title (Leadership Title, "Volunteer", "Active Member") — Dates
- As above, list one-line descriptions of what you did in the org, how you did it, and any results
- This section can include activities, student or non-student organizations, volunteer, or service work

Organization Name
Position Title (Leadership Title, "Volunteer", "Active Member") — Dates
- Same as above
- Same as above

SKILLS

- Technical Skills
  - List your technical skills, e.g. Basic C#, Intermediate AutoCAD, etc.
  - If not listed in experience, consider explaining briefly how you learned/applied the skill
- Certifications, Interests, Honors/Awards, or Languages
  - Use any extra space to list information from one or more of these categories

****ENSURE INFO IS ACCURATE; DO NOT GO PAST ONE PAGE; GET A CRITIQUE****

The Bullet Point Formula (Important)

Analyzed survey data from 200+ respondents to identify trends that informed a class project strategy

Copyright © Dell Inc. All Rights Reserved.

Let's Think About it Another Way

Using the X by Y by Z Formula

"Accomplished [X] as measured by [Y], by doing [Z]"

You want to focus on accomplishments – quantitative results and the impact that you had as a result.

Example #1

"As a Firmware Engineering Intern, I worked on improving the device's battery by integrating a fuel gauge sensor and establishing a battery saving state"

"Improved device's battery lifespan by 8% by integrating a fuel gauge sensor and establishing a battery saving state"

What's Different?

- Concise
- Begins with action verb
- Highlights results first
- Demonstrates impact, results are quantified

Example #2

"Participated in sales presentations due to ability to translate uses needs into easy-to-understand software solutions and helped sales team close several deals"

"Facilitated the closing of 5 deals generating $223K by translating user needs into easy-to-understand software solutions during sales presentations"

What's Different?

- Beings with strong action verb
- Highlights results first
- Quantifies results

Copyright © Dell Inc. All Rights Reserved.

Resume Review Checklist

Clarity & Formatting

- ❑ Resume is easy to read and visually clean
- ❑ Formatting is consistent
  - ❑ Fonts, spacing, bullet style
- ❑ Ideally 1 page
- ❑ Sections are clearly labeled and flow logically

Skills & Alignment

- ❑ Skills section is clear and relevant
- ❑ Technical/business skills match target roles
- ❑ Projects or coursework support their goals

Experience & Impact

- ❑ Bullet points start with strong action verbs
- ❑ Experiences describe responsibilities and impact
- ❑ Numbers/metrics included where possible
- ❑ Content aligns with student's career interests

Professionalism

- ❑ No spelling or grammar errors
- ❑ Tone is professional throughout
- ❑ Email address is appropriate
- ❑ LinkedIn included (if available)

DELL Technologies

Technical vs Business Resumes

Key Differences

Technical

- Skills at the Top
- Projects are Critical
- Tools & Languages Emphasized
- GitHub / portfolio included
- Shows *how* you Built

Business

- Experience at the Top
- Experience & Leadership are Critical
- Results & Impact Emphasized
- LinkedIn Emphasized
- Shows *what* you Achieved

Copyright © Dell Inc. All Rights Reserved.

Technical Resume

Engineering Focused Key Skills & Words

Software Engineering

Key Majors:
- Computer Science
- MIS
- Information Technology
- Data Science

Key Skills:
- Languages: Java, Python, C, C++
- Frameworks/Tools: Jenkins, Git, Docker
- Project Skills: Agile Methodologies
- Specialty Areas: AI/ML, Data Science, Edge Computing

Hardware Engineering

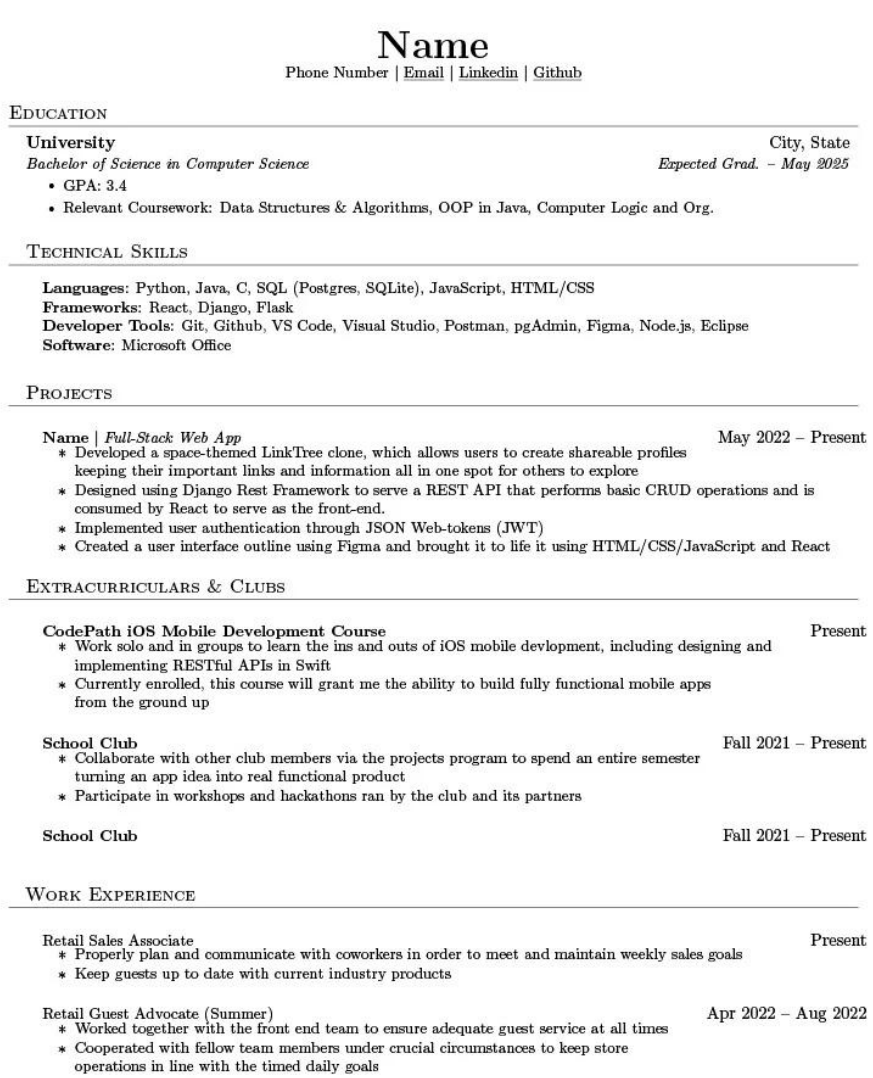

Key Majors:
- Computer Engineering
- Electrical Engineering
- Mechanical Engineering

Key Skills:
- Languages: Python, Perl, Bash
- Frameworks/Tools: x86 or ARM Computer Architectures & Chipsets, Creo/Solid works
- Project Skills: Understanding of HW & SW Interactions
- Specialty Areas: Thermal, Mechanical, Hardware Firmware, Electrical

Copyright © Dell Inc. All Rights Reserved.

Technical Resume

Engineering, Data Science/Analytics, etc.

Name

Phone Number | Email | Linkedin | Github

EDUCATION

University — City, State
Bachelor of Science in Computer Science — *Expected Grad. – May 2025*
- GPA: 3.4
- Relevant Coursework: Data Structures & Algorithms, OOP in Java, Computer Logic and Org.

TECHNICAL SKILLS

Languages: Python, Java, C, SQL (Postgres, SQLite), JavaScript, HTML/CSS
Frameworks: React, Django, Flask
Developer Tools: Git, Github, VS Code, Visual Studio, Postman, pgAdmin, Figma, Node.js, Eclipse
Software: Microsoft Office

PROJECTS

Name | *Full-Stack Web App* — May 2022 – Present
* Developed a space-themed LinkTree clone, which allows users to create shareable profiles keeping their important links and information all in one spot for others to explore
* Designed using Django Rest Framework to serve a REST API that performs basic CRUD operations and is consumed by React to serve as the front-end.
* Implemented user authentication through JSON Web-tokens (JWT)
* Created a user interface outline using Figma and brought it to life it using HTML/CSS/JavaScript and React

EXTRACURRICULARS & CLUBS

CodePath iOS Mobile Development Course — Present
* Work solo and in groups to learn the ins and outs of iOS mobile devlopment, including designing and implementing RESTful APIs in Swift
* Currently enrolled, this course will grant me the ability to build fully functional mobile apps from the ground up

School Club — Fall 2021 – Present
* Collaborate with other club members via the projects program to spend an entire semester turning an app idea into real functional product
* Participate in workshops and hackathons ran by the club and its partners

School Club — Fall 2021 – Present

WORK EXPERIENCE

Retail Sales Associate — Present
* Properly plan and communicate with coworkers in order to meet and maintain weekly sales goals
* Keep guests up to date with current industry products

Retail Guest Advocate (Summer) — Apr 2022 – Aug 2022
* Worked together with the front end team to ensure adequate guest service at all times
* Cooperated with fellow team members under crucial circumstances to keep store operations in line with the timed daily goals

Include your Github link, or equivalent, at the header with contact information

Skills Section – Must be Prominent & Specific (Break them out into different categories)

In projects and experience — include programming languages you used for each project.

Projects Matters as Much as Experience, What you Built, Tools Used, Impact & Performance

Measurable Outcomes Matter (Performance Improvements, Efficiency gains, Usage Metrics

Copyright © Dell Inc. All Rights Reserved.

Business Resume

Finance, Marketing, HR, Sales, etc.

Key Skills to Highlight:

- Relationship Building
- Collaboration
- Presenting
- Organization
- Time-Management

PROFESSIONAL SUMMARY

Bilingual professional (English and Spanish) with 5+ years' experience in consultative sales and customer service, consistently surpassing sales targets. Demonstrated proficiency in Salesforce and Microsoft Office Suite, with a strong track record in customer relationship and database management. Recognized for a highly motivated and results-oriented attitude, complemented by an analytical, flexible, and proactive approach. Exceptional communication, active listening, business acumen and interpersonal skills, thriving in collaborative team environments.

EDUCATION

Bachelor of Business Administration in Marketing *FA 2020 – SUMMER 2023*
University of Houston, C.T. Bauer College of Business, Houston, Texas
- GPA: 3.6

Professional Sales Certificate *FA 2021 – SP 2022*
University of Houston, C.T. Bauer College of Business, Houston, Texas
- 220 hours of live sales training within the number one nation's sales program for Professional Sales certificate
- Exceeded personal sales quota by 168% and ranked as second sales team with most dollar sales and player participation in our non-profit golf tournament that raised $127,000

EXPERIENCE

Dell Technologies – Services Sales Representative *AUG 2023 – CURRENT*
- Develop and execute a sales strategy that empowers and educates customers to transform their IT environment through Dell Technologies Services portfolio capabilities which led to exceeding assigned sales quotas over 300% within first year in role.
- Collaborate across multiple cross-functional teams in a consultative end-to-end approach to understand customer needs, strategize and execute accurate and complete solutions for a customer's unique technological environment.
- Uncover and discover technology needs within an organization through a consultative approach while generating additional sales opportunities through upselling and cross-selling techniques.
- Demonstrate strong skills, enabling effective communication with both technical and non-technical stakeholders, fostering lasting relationships, and the ability to provide insight and thought leadership to senior/CIO/CTO leadership and next two levels down.
- Train and mentor five new sales representatives, guiding, and equipping them to successfully manage their own book of business.
- **Performance Highlights:**
  - FY2024 Q1 Exceeded quota attainment at 376%
  - FY2024 Q2 Exceeded quota attainment at 184%
  - FY2024 Q3 Exceeded quota attainment at 210%

Dell Technologies – Lead Services Sales Intern *MAY 2023 – JUL 2023*
- Overseeing, leading, and organizing team meetings for a team of 11 interns, ensuring guidance and leadership with seamless coordination & execution.
- Mentored and guided all 11 interns, resulting in their individual recognition for outstanding performance and successful pitch wins while fostering their professional growth and development within the organization.
- Developed and delivered a comprehensive presentation on proficient sales questioning techniques & objection handling, benefiting a group of 36 interns.

Dell Technologies – Services Sales Intern *MAY 2022 – AUG 2022*
- Participated in a highly competitive internship program with 44 interns while learning new material weekly, collaborating in multiple team settings to creative competitive value creation sales pitches.
- Create deliverable marketing material for recruitment to Collegiate Athlete Leadership Program & in assisting the organization to become an Employee Resource Group
- Awarded winning team pitch once & was recognized in Weekly Intern Newsletter twice for being knowledgeable, exemplifying leadership, & professionalism
- Assist intern team leader in leading, planning, & executing two team meetings

VOLUNTEER

Dell Technologies | Black Network Alliance Employee Resource Group Member *MAY 2022 – AUG 2022*
- Successfully planned and organized three in-person leadership panel discussions, enhancing leadership engagement
- Moderated and led discussions with executive level leadership on critical thought-provoking topics such as change management, building resilience, career pivoting, personal branding, and mentorship, fostering professional growth and networking.

What Makes a Resume Stand Out at Dell

"We look for doers, not just participants."

Here's the truth: for early career roles, we're *NOT* expecting full-time corporate experience. But what we *ARE* looking for is…

Quantified Impact

Did you make a difference, even in a small way?

Initiative
(Projects, Clubs, Leadership)

Did you step up, take ownership, or go beyond what was required?

Curiosity & Learning Mindset

Are you eager to learn, ask questions, and grow?

Collaboration Experience

Can you work effectively with others?

Clear Interest in Tech/Industry

Have you explored, learned, or researched current news?

Your class projects, part-time jobs, clubs, and extracurriculars *ARE* your experience—it's all about how you tell the story.

What is an Elevator Pitch?

An elevator pitch is a concise, compelling summary of yourself and your ideas, designed to grab attention quickly.

The Three-Step Elevator Pitch

Copyright © Dell Inc. All Rights Reserved.

The Three-Step Elevator Pitch

1

Start by introducing yourself

- Name
- School
- Major
- Class Year

2

Provide relevant work, education, background experiences

- Education highlights:
  - Student organizations
  - Leadership roles
  - Special projects
- Previous work experience
- Character highlights

3

Tie it all back into your want for the position and a call for action

- "… And because of these reasons, I am so interested in your company!"
- "… And this is why I think my skills and passions align well with your company and its culture."
- "… And I would love to learn more about your open positions in XYZ field."

Make It Personal

1. Start with a Hook

2. Tell a Story

3. Be Concise

4. Practice and Refine

Example

Hi, I'm Ana, a recent computer science graduate from Texas State University. During my studies, I developed a strong foundation in software development, particularly in Java and Python. I completed several projects, including a web application that streamlined task management for small teams at my university, which significantly improved their productivity with student help desk tickets.

I'm particularly excited about Dell because of its commitment to innovation and technology. I admire how Dell leverages cutting-edge solutions to solve real-world problems. I'm eager to bring my skills in software development and my passion for technology to your team, contributing to impactful projects and continuing to grow as a software engineer.

Could we schedule a time to discuss how my background and skills align with the opportunities at Dell?

Bad vs. Good Elevator Pitch

Hi, I’m Alex. I’m a student here and I’m majoring in management. I’ve taken a lot of classes and I’m just looking for an opportunity to gain experience. I’m open to anything and just trying to see what’s out there.

Hi, I’m Alex. I’m a junior majoring in Business Management here at Texas State University. Through my classes and my role in the National Association of Black Accountants, I’ve really enjoyed working on team projects and improving processes. I’m especially interested in operations or project coordination roles where I can use my organizational and communication skills. I’d love to learn more about internships your team offers in that space.
